Innovation Events in 5 countries in Autumn 2013 to publicise possibilities for new partners to join FINESCE!

FINESCE is offering 1.3 Million Euro of European Commission funding to companies and research organisations through the FINESCE Open Call for proposals, which will be opened in September 2013 with a closing date in December 2013. Special attention will be given to SME's who can apply for 5 consulting contracts, each valued at 50.000 Euro, and also for the R & D work contributing to the FINESCE goals and trials.

The events will provide innovative companies and start-ups with insight into the opportunities to receive funding from the FINESCE project, to the plans and early results of the FINESCE field trials and will give them the opportunity to meet the Venture Capital companies who will assist in the organisation of the events.

Innovation Events are planned in September and October 2013, in the following cities:

- 10 September Berlin, Germany
- 12 September Dublin, Ireland
- 1 October Malmö, Sweden
- 9 October Horsens, Denmark
- 17 October Terni, Italy

Watch the FINESCE web site and join our mailing list for information to get your personal invitation!

Smart Grid Stakeholder Group meetings!

FINESCE is continuing the successful FINSERY tradition of organizing events for the energy industry to provide insight into the on-going results and plans of the project. The next planned Stakeholder meeting will take place on September 23 in Berlin, Germany. www.finesce.eu
